Who said, "Now, I think that I should have known that he was magic all along. I did know it - but I should have guessed that it would be too much to ask to grow old with and see our children grow up together. So now, he is a legend when he would have preferred to be a man"?

Use the product property of exponents to simplify each expression. Find the simplified form in the box. Put the letter next to each in the spot for the question below.
